Loft-style room

Original, loft-style furniture for teenagers that value sharpness and fashionable combinations. Decor that imitates worn concrete, wood-like frames with black writings and metal handles give the WOW effect that amazes both family and visitors.

Near to you

In the headrest of the bed, you will find a practical shelf where you can put all your books and favourites. Thanks to the special holes for wire organization, you will charge your phone nice and easy.

Are you a book enthusiast?

Get a rack with a bookcase! You can also display your favourite decorations there. Two, easily accessible drawers are good storing space for everything you want to keep out of sight.
