

COLLECTION

IMOLA

For young individuals

Modern, bright, universal - this is what IMOLA furniture for kids and teenager is meant to be. A state-of-the-art combination of white and the color of wood with pewter details gave an excellent effect. Namely, the furniture is perfect for both boys' and girls' rooms.

Combine, divide, change!

Closets, racks, dressers and shelves - you can combine them freely to create a totally personalized interior.

Choose the closet you need. A corner closet will let you ergonomically utilize the space in the corner of the room, and it will fit a great number of clothes. A double-door closet is really capacious, but a single-door one will be a perfect match for rack.
